Outdoor RSP Control Panel

Part Number: CUST-PNL-8XRSP-NEMA4X

Product Overview

The Outdoor RSP Control Panel is designed for exterior lighting control applications requiring robust, weatherproof switching and dimming capabilities.

Features

- Eight WaveLinx Pro Switchpacks with 20A relay and 0-10V dimming output
- Universal voltage input supports 120, 277, and 347 VAC
- NEMA 4X rated polycarbonate enclosure for outdoor installations
- UV resistant and corrosion resistant construction
- Fail-safe operation defaults to 100% if communications are lost
- Easy programming using WaveLinx Mobile App and Core Lighting App
- Suitable for plug load control applications
- Pre-wired and fully assembled for rapid deployment
- Eight 4-inch junction boxes for field wiring connections
- Enclosure Rating: NEMA 1/3R/4/4X/12
- Enclosure Dimensions: 24" H x 24" W x 6" D

Applications

- Parking Lots
- Building Exteriors
- Site Lighting
- Athletic Fields
- System Integration
