## Outdoor WAC Control Hub

Part Number: CUST-PNL-WAC-TSE-08POE-NEMA4X

### Product Overview

The Outdoor WAC Control Hub serves as the central control point for WaveLinx wireless lighting control systems in outdoor environments. It provides local user interface, network connectivity, and area control capabilities in a weatherproof enclosure.

### Features

- Integrated WaveLinx Area Controller for centralized lighting management
- 7-inch touchscreen with edge-to-edge glass and high resolution display
- User-friendly interface for room and zone control
- Raise, lower, and adjust light levels for entire areas or individual zones
- Built-in scheduling, manual control, and system status monitoring
- 8-port PoE switch for network connectivity
- Configurable settings with WaveLinx Mobile application
- NEMA 4X rated enclosure for outdoor installations
- UV resistant and corrosion resistant construction
- Pre-wired and fully assembled for rapid deployment
- Enclosure Rating: NEMA 1/3R/4/4X/12
- Enclosure Dimensions: 16" H x 14" W x 8" D
- Powered by 120V AC circuit

### Applications

- Parking Lots
- Building Exteriors
- Site Lighting
- Athletic Fields
- System Architecture
- Touchscreen Capabilities
